

# STEPMANIA X QUICK START

## POWER UP

- Ensure that StepManiaX is powered on. Make sure the main unit is plugged into a powered wall outlet, and that the power switch on the back of the unit is flipped on.
- StepManiaX will launch automatically and be ready to use within a few moments.

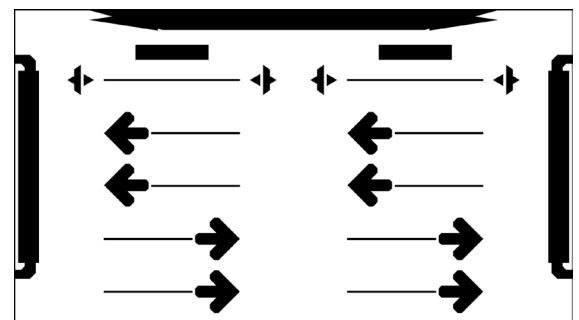

## STARTING THE GAME

- Once the game is loaded, simply tap the **Join** button to start the game.
- Select an initial difficulty.
- Using the touch screen, select a song and tap **Select**.
- Confirm your difficulty and tap **Ready** to start playing.

## PLAYING THE GAME

- After a song is selected, arrows will start scrolling upwards on the screen.
- When an arrow reaches the end of the moving line, step on the directional floor panel indicated.

## EVALUATION

- When a song completes, information showing how well the song was played will be displayed.
- Tap **Continue** to keep playing, or tap **Quit** to end the session.
